No: T0000357

Word/Mark:

Limitations: The following colours are claimed: Pantone Blue 661 C; Pantone Red 185 C

Class List:

- **7 for** Machine tools; Motors and engines (except for land vehicles); Machine coupling and transmission components (except for land vehicles); stand-alone or mobile electrical energy generators; Wind-powered and tidal electricity generators; Turbines for power generation; Alternators for generating energy; Motors for windmills; Robots (machines); Floating wind turbines; Wind turbines; Water mills; Electricity generating devices; Blades, Rotors for wind turbines or for water power plants. Energy converters using wind, water temperature, wave movement or ocean currents, namely turbines, oscillators and heat exchangers for generating electrical energy from wind power, heat power, wave power or water power. Electrical and electronic apparatus and equipment all for use in generating energy obtained from alternative energy sources.
- **9 for** Apparatus and instruments for the computer-assisted design of ships, wind turbines, water power plants, equipment, installations or modules for generating energy and systems for generating electricity; Electrical systems and circuits for generating and distributing electricity for installations or modules for generating energy and for installations for generating electricity; Acoustic, electronic and electromagnetic apparatus and instruments for energy generating installations; Scientific (other than for medical purposes), nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus and instruments for conducting, distributing, transforming, accumulating, adjusting and controlling electricity; Apparatus for non-medical analysis; Optronic apparatus and instruments, apparatus and instruments for detecting and collecting data, for categorising, checking, recording, interpreting, signalling, simulating, reproduction, processing, transmission or visualising sound or images; Communication and telecommunication apparatus; Calculators, consoles, computers, recorded computer software or programs, software packages, magnetic or computer interfaces, data carriers; Magnetic data carriers; Data processing equipment (augmented reality devices), Data processing equipments and apparatus; Peripheral devices for computers; Electric batteries; Exercise and training simulators; Radar apparatus, Sonars; Simulators, namely cabins reproducing the simulated environment, immersive means (cabins, platforms, gangways), means for reproducing the all or some of the functional, environmental, visual and dynamic aspects of premises (moving cabins); Computer software for simulating platform operation ; Computer software reproducing the movements of platforms and the physical environment; Computer software for simulating the environment and equipment used by surface vessels, submerged modules for generating energy, wind turbines, marine current turbines, installations or modules for generating energy and systems for generating electricity taking into account the physical phenomena linked to the environment, namely

electromagnetic propagation, acoustic propagation, thermodynamic propagation, rendition of the visual and acoustic environment; Tools (computer software) for modelling equipment for operating platform installations in the field of propulsion systems, power plants and the safety of civil installations; On-board equipment for the dynamic control of naval platforms; Computer programs and computer software for use in the fields of hydrodynamics, fluid mechanics, automatic control engineering and optimisation; Dynamic positioning devices; Devices for stabilising the movement of wind turbines, water power plants, installations or modules for generating energy; Measuring benches or test-benches for laboratory or field testing; Apparatus for converting energy from movements of the sea or from the wind or from the water temperature; Energy collectors; Commutators; Sensors, namely devices and apparatus for capturing information; Signal sensors; Encryption apparatus and instruments; Electric converters.

- **11 for** Installations for generating thermal energy by water temperature; Heat exchangers, other than parts of machines.
- **37 for** hipbuilding; Repair and maintenance of wind turbines, marine current turbines, equipment, installations or modules for generating energy, electrical power generators and systems for generating electricity; Installation and commissioning of wind turbines, marine current turbines, equipment, installations or modules for generating energy, electrical power generators and systems for generating electricity; Assembly and maintenance of systems and components mounted on platforms; Assembly and maintenance of wind turbines, marine current turbines, equipment, installations or modules for generating energy, electrical power generators and systems for generating electricity; Installation, repair and maintenance of scientific and electric apparatus and instruments, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, and underwater or surface modules for generating energy. Maintenance of the operational condition of systems for coaching and providing of training to personnel in the naval, civil and energy fields.40. Energy production services; energy treatment and transformation services; electrical power generation services from renewable energies; generating electricity services from wave energy, from wind energy, from tidal energy, from sea temperatures or from solar energy; rental of energy generating equipment; information and advisory services relating to energy production; information and advisory services relating to the generation of electricity from wave energy, from wind energy, from tidal energy or from solar energy; information and advisory services relating to energy production from sea temperatures.
- 42. Engineering, including research and development of new products, for others; research in the field of use of natural energy and design and development of new products in the aforesaid field, for others; Technical consultancy and System surveying; Conducting technical project studies; Design of wind turbines, marine current turbines, equipment, installations or modules for generating energy and systems for generating electricity; Naval architecture; Scientific and technological services and research, design and development, in particular in the naval, civil and energy fields; Analysis and research in the fields of scientific, nautical, electric, electronic and computer apparatus, and in the naval, civil and energy fields; Engineering evaluations, estimates and research in the field of science and technology; Production, design, development, installation, updating, rental and maintenance of computer software; Computer programming for memory cards, electronic cards, databases or networks; Conversion of computer programs and data, other than physical conversion; conversion of documents from physical to electronic data; Design and development of computer software in the fields of engineering and naval architecture, of computer simulation software and of installations for generating energy; Design, development, updating and maintenance of computer software for aerodynamics, hydrodynamics and optimising multidisciplinary design; Computer programming and use of databases in the field of hydrodynamics; Surveying in the fields of on-board measurement, control laws and digital simulation, the landing and recovery of drones; Inspection of naval or underwater structures, underwater modules for generating energy, wind turbines, marine current turbines, of equipment, installations or modules for generating energy and systems for generating electricity.
